NEW DISASTER

On 27 May 2006 at 5.54 am an earthquake took place in Indonesia.

Before the earthquake the inhabitants who lived in the village were quietly sleeping. The earthquake was 6.2 on the Richter scale. The people were afraid and went outside the village. A lot of houses were destroyed, there were 35,000 victims. There were 54,000 dead people, 7,000 injured and 25,000 missing people.

The people need doctors, medicine, food, water and psychological aid. The local aid is composed of the local Red Cross, local doctors and 400 volunteers.

Indonesia is very much exposed to earthquakes : for example the Tsunami on 26th December 2004 that killed 230,000 people and important material damage.
